New Business:

1) Website structure.

- a) Prefer not to connect to external website - too much maintenance
- b) Suggested structure:

Schedule of events is needed. Start with student showcase and count backward. Set timeline for students to upload/submit work, and other milestones, Announcement, Registration, etc.

Ana Jofre suggested to discard the 'Blog' entry.

Note: Research webpage will be different from <https://sunypoly.edu/research.html> and will be focused on Utica.

Vijay - question - ... audio not clear...

Iulian - will schedule another meeting with website people

Discuss rubric for student showcase

4 types of presentations.

What is a table presentation? Don't remember...It is the demonstration of an object functionality that uses a table as support.

How will things be different in a virtual context?

Request for comments.

Iulian – suggests that we do a survey of what other student showcases look like.

The suggestion to eliminate the 'Blog' entry has been adopted and approved unanimously.

Last year's showcase:

<https://sunypoly.edu/student-showcase.html>

To do:

Find virtual presentations, summarize formats.

Plan structure of website with timeline.
